Volume 3 | Issue 1 | 2023

Welcome to the third issue of our newsletter

We are delighted to welcome our award winners in person this year to Tel Aviv, Israel, and many thanks to the Israel Orthodontic Society, and Dr. Yoav Shapinko, our kind hosts.

FEO General Assembly Meeting 2022

WHAT IS FEO?

The European Federation of Orthodontics (FEO) was established to develop formal and structured links between the scientific societies of orthodontics in Europe, which your country is a member of.

A same rate agreement is established between FEO societies to allow members to register for scientific meeting of European societies with ease and less expense, and promoting collegiality amongst our European colleagues, and to share ideas.

A code of ethics has been formulated, regarding the relationships between Orthodontic Societies and commercial dental companies. Guidelines have been sent to FEO member societies, overall strengthening the link between societies and our overall commitment to develop and progress orthodontics in Europe.

2022 FEO GAM

Israel Orthodontic Society

Tel Aviv, Israel

It is my pleasure to address these words to all of you, in order to enhance our communication and update information about our last activities.

We are currently carrying out a survey about the consequences that the COVID pandemic has caused in the practice of orthodontics in Europe. A poll was sent to the societies, to be distributed to all their members, with questions about the problems during and after the pandemic.

A brief report will be offered in our next General Assembly in Tel Aviv, Israel, kindly hosted by the Israel Orthodontic Society, many thanks to them, and Dr. Yoav Shapinko. The final results will be presented during the GAM in London, September 2023, kindly hosted by the British Orthodontic Society.

The FEO Ethics Committee is also developing a study for incorporating the topic of ethics in the curriculum of dental studies. In 2023, we will

grant the FEO Excellence Award, given every two years to an orthodontist who has contributed to European orthodontics, in the scientific and clinical, or humanitarian fields. Our two annual awards, the FEO Best Clinical Paper and the FEO Award for the Best Scientific Paper will be also given.

Important news this year is that we are delighted to welcome the Mexican Society of Orthodontists (AMO), as a correspondent member of FEO. This is the first time that an American association joins FEO and we congratulate this initiative, approved by the General Assembly in Tel Aviv.

My appreciation to all our societies and my wishes of continuing our future cooperation.

Kind regards

Dr. Ángel Alonso Tosso

President FEO
